OUR FISHING

The Albany River watershed, including Miminiska Lake, is one of the greatest remote fishing areas in Canada. Spectacular Walleye and Northern Pike fishing abounds in the 15,000 acres of varied and exciting lake waters, while world-class Brook Trout fishing can be found in the numerous fast-moving rivers. Our experienced native guides know the waters like the back of their hand, and where the monster Pike and trophy sized Walleye can be found. Guides are an option on Miminiska Lake, but are a requirement if travelling on any of the fast water rivers or outlying lakes.

RELAX AND UNWIND

Dining at Miminiska is one of the highlights of every day. Our two dining rooms are comfortable and intimate, with exceptional views of the lake while you enjoy the varied daily menu. Whether it is the large choice of breakfast fare or the exceptionally tasty supper, you'll be treated like royalty. After dinner, enjoy the company of other guests while relaxing around the fireplace in the lounge, play a game of pool, or experience the fresh northern air and beautiful sunsets on the enormous lodge deck.

YOUR ACCOMMODATIONS

The accommodations at Miminiska Lodge have not been compromised by our remote location. Guests may choose from a variety of accommodation facilities, ranging from 2-person suites to a 12-person chalet. There are luxurious facilities to suit every party size, all equipped with private baths, and some with large living rooms, fireplaces, and breath taking views overlooking Miminiska Lake.

MARINE EQUIPMENT

In order to provide maximum safety as well as durability in reaching the numerous fishing areas on Miminiska Lake and the Albany River, we provide top quality 16 foot Lund aluminum boats, equipped with 25 HP outboard motors. All boats are furnished with padded swivel seats, landing nets, paddles and anchors. Our dock staff will ensure your boat is well equipped and ready to go whenever you're ready to hit the water.

OUR SHORE LUNCH

Most guests claim that the shore lunch of freshly caught walleye is one of the highlights of their trip. At Miminiska, our camp shore lunch is a specialty. Here you'll meet with other lodge guests out on the lake to enjoy an expertly prepared meal including fresh breads, salads and homemade desserts. If you have a guide, they too do a superb job preparing your walleye - just as you like it.
